

# LIWONDE NATIONAL PARK

## **WHAT IS IT?**

This is a magnificent area of flood plain grassland, reed swamps and floating meadows. The River Shire flows through the park, South of Lake Malawi providing the great water source to a number of wildlife, fish and bird species which the National Park has to offer.

## **WHAT CAN ONE DO THERE?**

Well taking on a bit of a twist to your normal safari in the back of a Land Rover, Liwonde decided to give you a little more adventure by being able to view the likes of waterbuck, sable, impala and elephants while seated in a boat. Further into the park, the habitat starts to change allowing for sightings such as lion, leopard and kudu along with a number of other mammals. If that wasn't enough the Park boasts over 370 bird species including Malawi's only population of Lillian Lovebirds as well as the exclusive Brown Breasted Barbet, Pels Fishing Owl and Palm Nut Vulture.

## **PACKAGE**

A day trip to the Park is a 1.5 hours drive, 90 kilometers from The Makokola Retreat to the park, with optional lunch at Mvuu Camp and a boat trip on the Shire River with an experienced wildlife guide. The trip takes a full day and offers an enjoyable insight into Malawi's wildlife and contrasting scenery.

## **PRICES**

Adults- US \$ 120
